a	Understanding of the brain in the past	b	What the brain does
C	Keeping the brain healthy	d	Facts about the brain
e	New ways to study the brain		

We got this article and pictures from Salim, a doctor's son.

- It's about of 80 per cent water. It has 100 billion cells, the same number as the number of stars which are in our galaxy. Although it is only 2 per cent of the body's weight, it uses 20 per cent of the body's energy. What is it? The brain.
- The brain is the most complex organ in the body. It is the organ which makes it possible for us to think, to have emotions, to remember, to move and to dream.
- For a long time it was difficult to study the brain. Scientists in ancient times did not know if we thought with our brain or our heart. When we try to remember things, we still say 'learn by heart'.
- Slowly doctors and scientists have learned more about the brain. About 100 years ago they started to take x-ray pictures. Now they can study electrical waves from the brain and take electrical photos during different mental activities.
- It is important to look after our brains. They need the rest which comes during sleep. They need the energy, proteins and vitamins which come from a good diet. Like the physical body, our brains also need regular mental exercise which keeps them fit, fast and healthy.

	B READING Tick (✓) true sentence	s a	nd cross (X) false sentences.	
1	The brain has water in it.	2	The brain has lots of cells in it.

'Yes' I said. I managed to sound polite.

'Hello. Is that Dr. Terry Brown? My name is Jassim AlMolla. I'm from Saudi Arabia. I've just found your mobile. I heard it ringing and saw it lying on the ground.'

'How do you know it's mine?' I asked.

Your name is in the address book. So is your number, Jassim replied.

'But my phone is here,' I said. 'I've just finished speaking to my friend.'

'Oh,' Jassim said. 'I've made a mistake.'

'No, wait. Maybe it's my son's mobile."

We talked about the phone and I asked Jassim to tell me about where he found it.

An hour later, the phone rang again.

'Dad,' the voice said. It was my son, Jack. 'Something strange has just happened. A young man came to my flat. He had my mobile. I didn't know it was missing. I thought it was in my pocket.'

'Yes,' I replied. 'That was Jassim. He found your mobile lying on the ground near a supermarket. He phoned me and then offered to take your mobile to your flat. He's very kind.'

'Yes, he is,' Jack said. 'I suggested giving him some money for his trouble but Jassim refused to take anything. He said, "I like helping people" and then he left.'

Thank you for your e-mail. I have just completed a school project about food in different countries. The information you gave me was very useful. Our school term has finished and I have been on holiday for a few days. We have been very busy at school this year as we have important examinations next year. Most days I have had two or three hours of homework. I have not had much time to relax, but I have managed to play football for my school team once a week. My parents have promised to take me and my brother on holiday, but they have not decided where to go yet. I hope that you have had a good year at school too. Please write to me and tell me what you have done.
